| 1. It is important to understand that the existence of this document alone does not automatically constitute authority to install the aircraft part/component/assembly.<br><br>2. Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.<br><br>3. Statements 13a and 14a do not constitute installation certification. In all cases the aircraft maintenance record must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown. |                     |                                                                 |          |                                                                                                                                                                                                                                                                                                                                                                                                    |                                                            |                                                     |  |
